

Steps for Android Zero-touch Enrollment

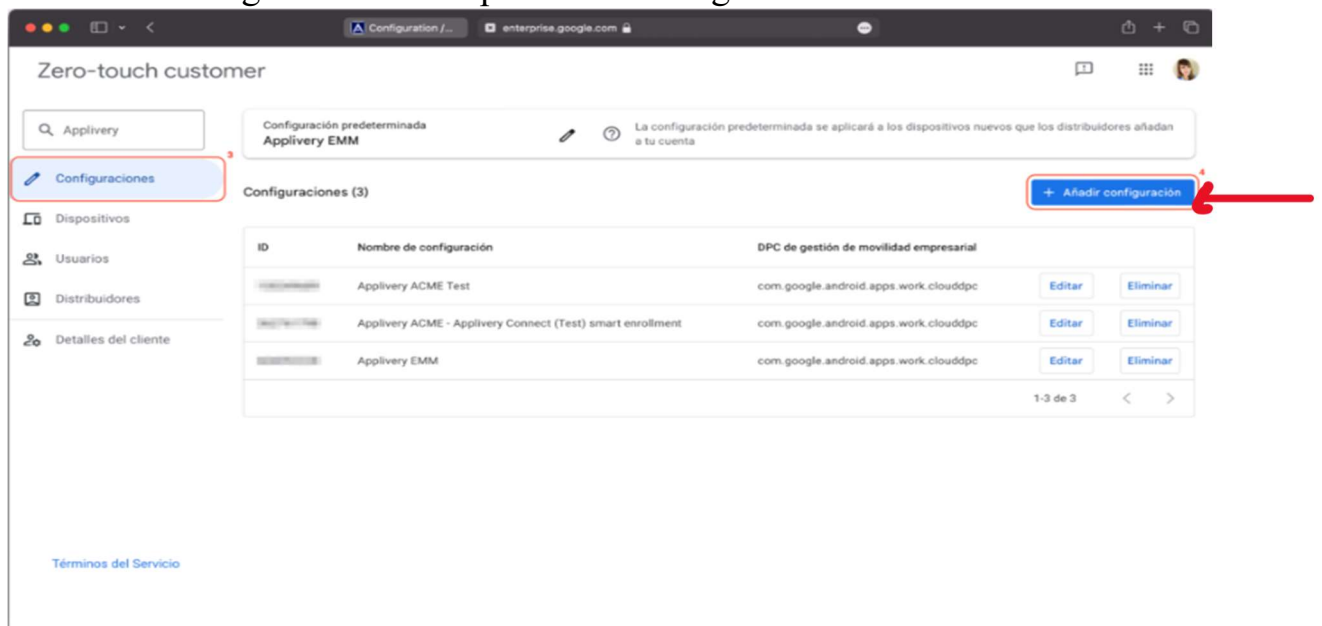

Step 1: Integrate Applivery with Zero-touch. Once in the Applivery dashboard, head to Device Management > Configuration and select the Android Zero-Touch (1) section.

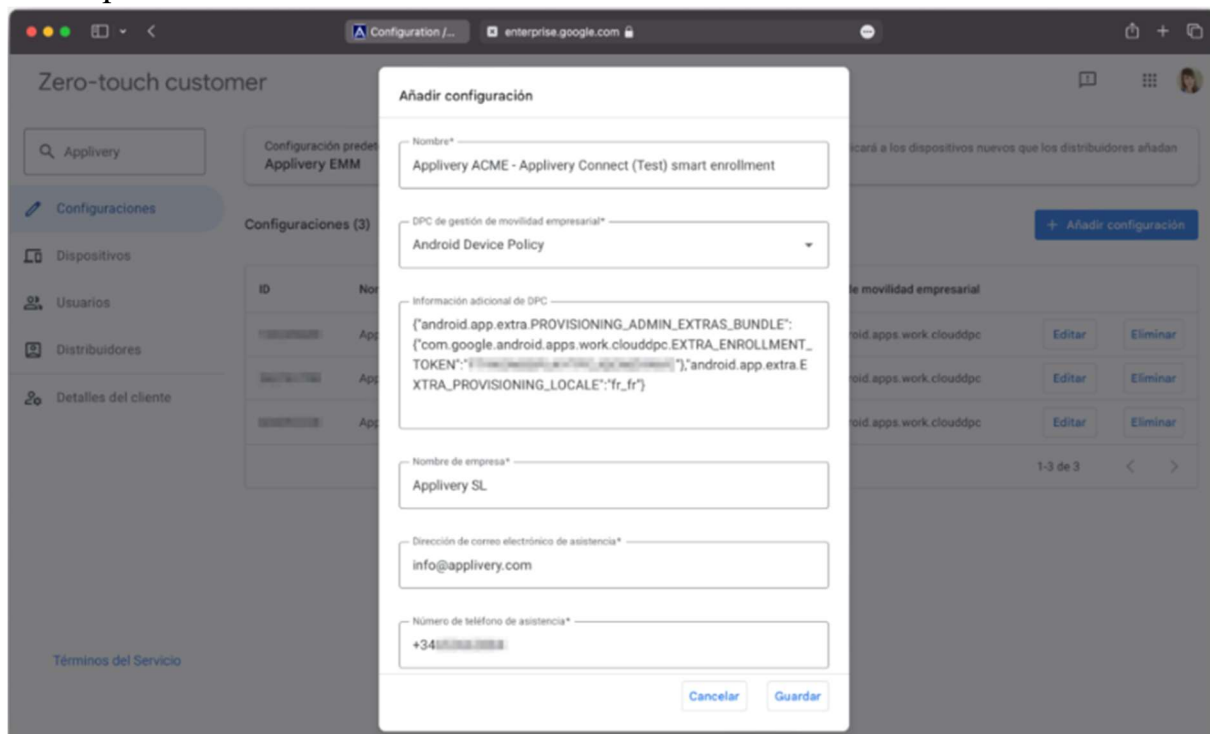

Step2: Once the integration has been successfully completed, you just need to click on View devices in the zero-touch portal

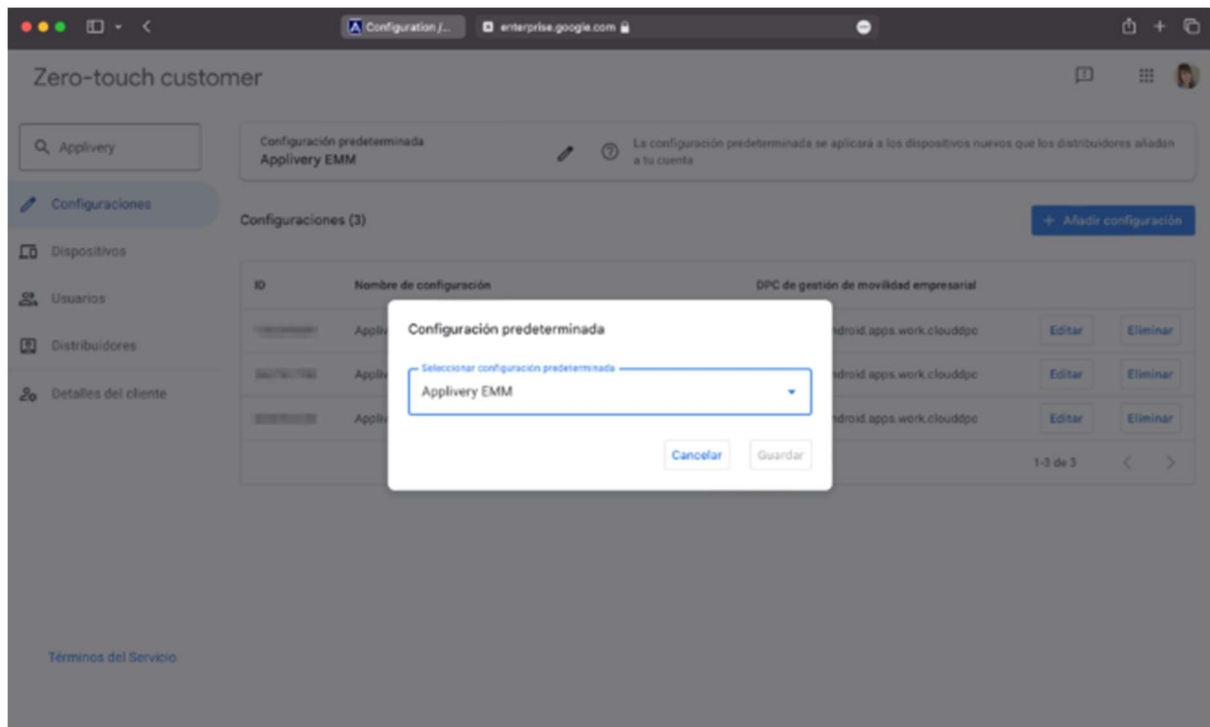

Step3: A new window will open in your browser, where you will find the Configurations section. You can add a new configuration by simply clicking the + Add configuration button placed on the right side of the screen.

Step4: At this stage, you need to provide a name for the configuration and fill in the required fields.

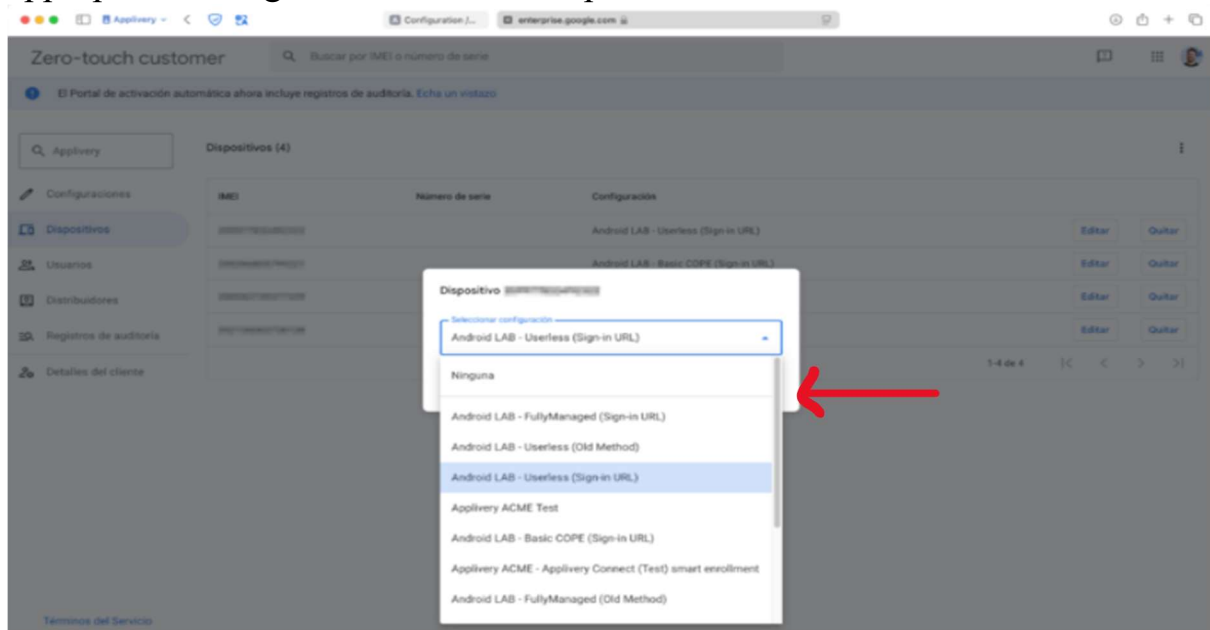

Step5: Select the configuration, which is to be automatically applied to the added devices and click the Save button.

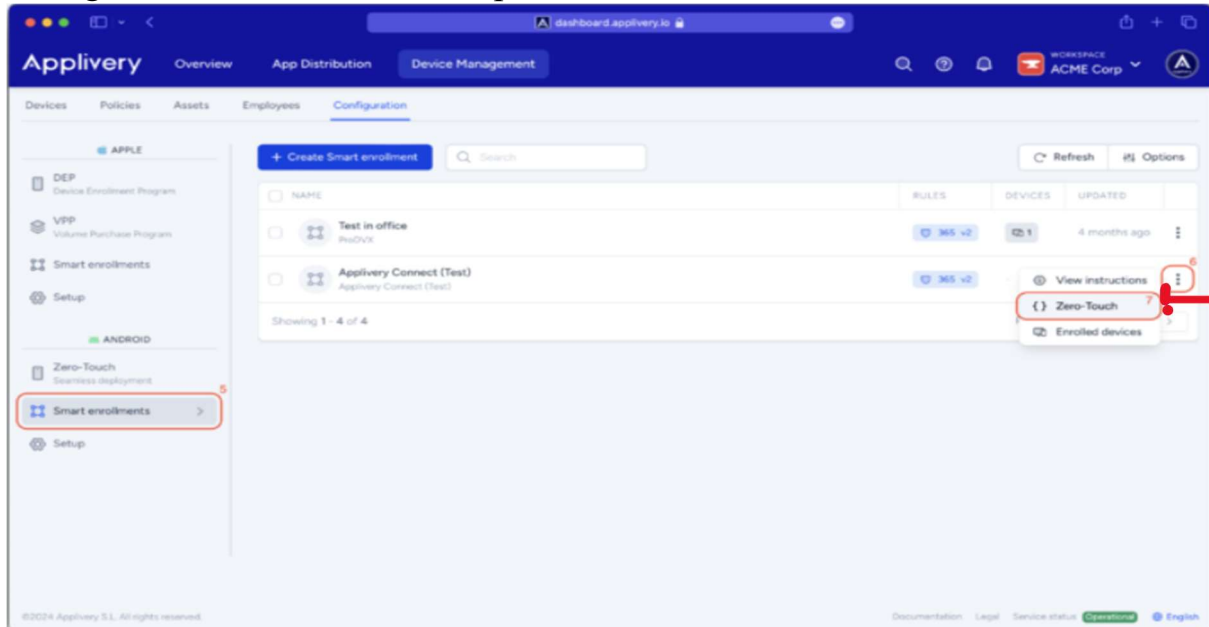

Step6: Adding the configuration to your devices

To assign a configuration, select Edit on the desired device. Then, choose the appropriate configuration from the drop-down menu.

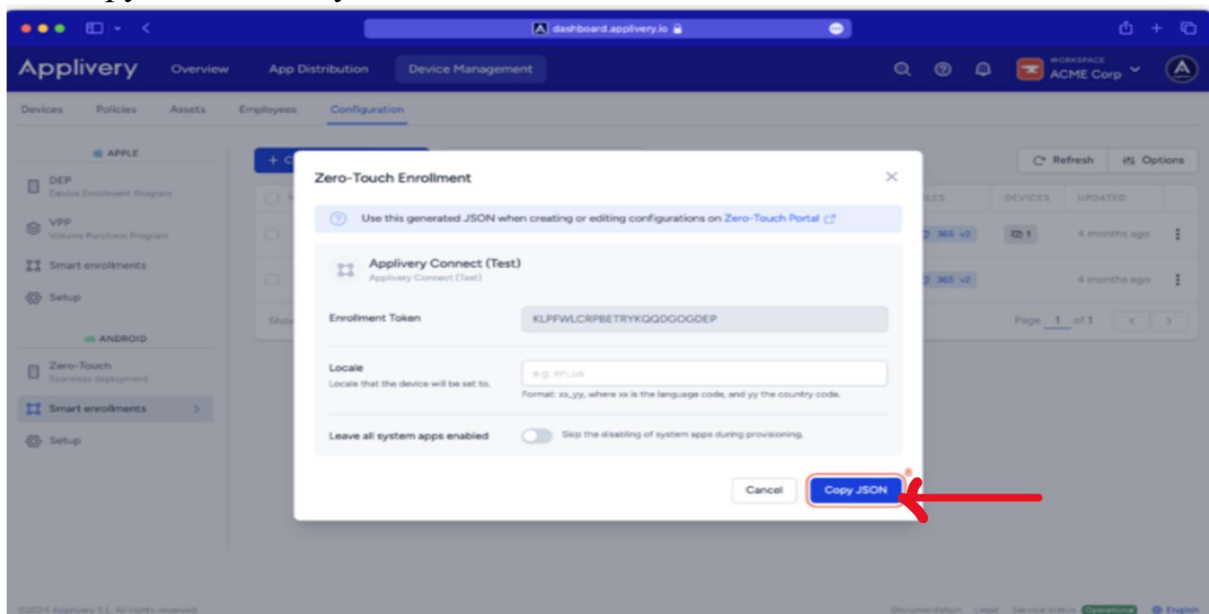

Step7: Obtain the JSON for the DCP extras field

click on the vertical dots located at the end of the smart enrollment you wish to configure within the Zero-touch portal and select Zero-Touch

Step8: A modal view will appear, allowing you to input additional configuration and copy the necessary JSON for the DPC extras.

Steps to Enroll in DEP

Step 1: Create an Agent Account Go to deploy.apple.com. Use a business email ID to create an account.

Step 2: Turn On Two-Step Verification Go to My Apple ID and turn on two-step verification. This keeps your account secure.

Step 3: Complete the enrollment process

- **Verification contact.** Enter contact information for an individual who can verify that you have the authority to enroll your organization in the program
- **Business information.** Enter address information, including a zip or postal code, and a valid D-U-N-S number for your company
- **Apple Customer Number.** If you purchase hardware or software directly from Apple, you'll receive an account number assigned to your organization
- **DEP Reseller ID.** If you purchase hardware or software directly from a participating Apple Authorized Reseller or carrier, you'll need to provide your reseller's DEP Reseller ID
- **DEP Customer ID.** Once enrolled in the program, you'll be assigned a DEP Customer ID, found on the DEP website in the menu in the upper right corner next to your name, under "Institution Details."

Step 4: Agree to the terms and conditions.

Step 5: Add administrator

Log in to the ADP website and choose Admins from the menu on the left. Choose Add Admin Account and enter a name, an email address, and a location, if applicable, for your new administrator

Step 6: Link your MDM solution.

From the DEP website, you'll establish a virtual server for your MDM server or servers. Virtual servers in DEP are linked to your physical MDM servers. You can add servers at any time.

Step 7: Assign devices

You can assign devices to your virtual servers by order number or by serial number. Only eligible devices will be available for assignment to your MDM server on the program website.

Step 8: Review assignments.

Once you've set up your virtual MDM servers and assigned devices to them, you can review several aspects of your device assignment, including:

- Date of the assignment
- Order numbers
- Name of the MDM server to which the devices are assigned
- Total number of devices, separated by device type
